DETAILED ACTION

Response to Arguments

The amendment filed 4-29-2005 overcomes the examiner's prior art rejection.
Hence **claims 1, 3-6, 9-11, 15-17, 21, 23-24, 27-28 and 30-33 are allowed.**

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Current claim 23 depends from cancelled claim 20. Hence the examiner suggests it depend from claim 17.

The application has been amended as follows:

23. (Previously Presented) The wireless receiver of claim ~~20~~ 17 further comprising a control signal detector for recovering from the received form of the wireless signal a value for a ratio between the energy per pilot symbol to the energy per data symbol for use by the memory.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

1. The claims are allowed based on the applicant's position that the examiner's prior art discloses examples of "...complicated and complex techniques for calculating a log-likelihood ratio (LLR) as compared to the simplified techniques provided by the present invention which makes use of a noise variance...".

2. The applicant also states that "...that one of ordinary skill in the art would not be motivated to combine the '744 Patent Application with the '823 Patent because to do so would either require one or both of these references to change their principle of operation or render one or both of these references unsatisfactory for their intended purpose. The '744 Patent Application specifically discloses the use of turbo encoded symbols, whereas the '823 Patent is completely silent as to the use of turbo encoded symbols.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
